Sauvignon Blanc

VINTAGE

2017

ABOUT THE DOMAINE

In 2005, the Tement family founded the Slovenian winery Domaine Ciringa. Ciringa is directly located next to the Austrian winery Tement and their most famous single-vineyard Zieregg. Domaine Ciringa vinifies puristic and minerally Sauvignon Blancs that grows on pure coralline limestone soil. The combination of the microclimate and the coralline limestone soil provides perfect conditions for an accentuated, long-living, authentic and minerally Sauvignon Blanc. Domaine Ciringa more than 15 years ago decided to start taking its first steps towards organic farming, whilst additionally engaging in cross-border partnerships with horse and cattle farmers, as well as using renewable energy sources. Today the vineyard farm biodynamically according to organic principles, keeping the vineyard and the soil in balance as key priorities to produce quality, organic wines.

WINEMAKING

The name 'Fosilni Breg' means 'fossil mountain' and is indicative of the terroir that this wine is produced from. Hand selected noble rot berries go into this mouthwatering single vineyard Beerenauslese Sauvignon Blanc.

TASTING NOTES

Elegant notes of peach, blackcurrant, lemongrass and honey. The lively acidity balances the sweetness beautifully. Perfect for fruity desserts, strong cheeses and as an aperitif.

TECHNICAL NOTES

Alcohol by volume
15.5%

Vegan
